Summary

Software engineer developing in Unity since 2019, including 4 years professionally shipping 2D, 3D and VR projects from prototype to client delivery. Strong in gameplay systems, multiplayer (Netcode for GameObjects) and shaders/VFX, with solid 2D and 3D art skills in Photoshop and Blender. I also create math-for-gamedev videos animated entirely in Unity, and I'm looking to bring that mix of engineering and creativity to my next role.

Technical Skills

Programming Languages: C#, C++, HLSL
Unity: URP, Shader Graph, VFX Graph, Netcode for GameObjects, Unity Gaming Services, Splines, DOTween
XR: OpenXR, XR Interaction Toolkit, Hand Tracking, Meta Quest
Platforms: PC, Mobile, WebGL, VR
Tools: Git, Visual Studio, Blender, Photoshop, FL Studio
Also: ASP.NET, Angular, SQL Server, REST APIs

Work Experience

Unity Developer
Snack Group, Paris, France, Remote *02/2025 - 10/2026*

- Built VR training simulations (Meta Quest, OpenXR, URP), from first prototype to client delivery.
- Implemented real-time sync between VR headsets and tablets/PCs with Netcode for GameObjects.
- Developed an educational VR experience on animal genetics and climate adaptation for INRAE (Meta Quest 3).
- Shipped WebGL applications and games alongside VR projects, owning gameplay, interaction and UI.

.NET Full Stack Developer
SQLI Digital Experience, Oujda, Morocco, Hybrid *03/2024 - 01/2025*

- Built features across multiple enterprise web apps in large teams (Angular, ASP.NET, SQL Server, REST APIs).

Unity Game Developer
Kokoro Games, Casablanca, Morocco, Remote *01/2023 - 01/2024*

- Developed 2D and 3D games for entertainment and education, from gameplay systems to level design.
- Iterated on games with publishers using playtest feedback and KPIs (e.g. retention, session length).
- Improved game and level design workflows for a small team.

Personal Projects

- **Personal Projects:** personal projects I've made over the years. Works
- **YouTube:** animated videos made in Unity and C# explaining the math behind game development. YouTube/EN, YouTube/MA
- **Art:** drawing and visual storytelling. Instagram

Education

École des Hautes Études d'Ingénierie (EHEI) **Oujda, Morocco**
Engineering degree - Software engineering *2021 - 2024*
Institut Spécialisé de Technologie Appliquée (ISTA) **Oujda, Morocco**
Specialized technician diploma - Software development *2019 - 2021*
High school Abdelkrim El Khattabi **Nador, Morocco**
High school diploma - Physical sciences *2018 - 2019*
