WORK EXPERIENCE

Unity Developer

Snack Group, Paris, France

02/2025 - Present

- Developed advanced simulations for VR, WebGL applications, and games from the ground up to final delivery.
- Worked with multiplayer systems and netcode packages to connect VR headsets with other devices for synchronized functionalities.
- Translated client requirements into functional simulations and user-friendly workflows.

.Net Full Stack Developer

Sqli Digital Experience, Oujda, Morocco

03/2024 - 01/2025

- Worked as a full-stack developer on multiple web applications, collaborating with large teams and utilizing Angular, ASP.NET, SQL Server, and REST APIs.

Unity Game Developer

Kokoro Games, Casablanca, Morocco

01/2023 - 01/2024

- In my role as a unity developer, I have contributed my skills to develop and design several 2D and 3D games for entertainment and educational purposes.
- Collaborated with publishers to test and optimize games, implementing improvements based on player feedback and KPI analysis.
- Collaborated with a small team to streamline workflows for game and level design.
